

# Dog Card

Mark Gillespie (2022)

This model uses a piece of paper which is approximately 4:1. The exact dimensions aren't very important.

1

Begin with the white side up. Fold and unfold the diagonals on the right side. In the next step, we will zoom in on the right side of our paper

2

Fold a vertical crease to create the left side of a square

3

Fold square in half vertically

4

Fold and unfold vertical crease at the side of the rectangle

5

Fold and unfold the paper in half horizontally. The crease only needs to extend across the square at the end of the sheet

6

Fold and unfold diagonal creases. Then flip paper over

7

Rabbit ear fold along the existing creases

8

Squash fold to the right

9

Squash fold again

10

Fold top right corner to bottom left corner and unfold

11

Fold corner to the intersection and unfold

12

Open double sink

13

The completed sink should look like this. Flip model over

14

Fold and unfold edge to edge, bisecting triangle corners. When making these creases, you only need to fold the top layer of paper

15

Rabbit ear fold the top layer of paper, allowing back flaps to swing out

16

Unfold flap

17

Fold corners in to center

18

Fold top flap down along  
existing crease

19

Fold everything to the right  
along existing crease

20

Fold flap over, aligning corner  
with the model's left edge

21

Flip model over

22

Fold flap over to the left

23

Fold ears down and snout up to form dog's face

24

Fold nose down

25

Completed head

26

Fold left corner down to bottom edge

27

Mountain fold paper to the right. The fold should be just to the left of the dog's ear

28

Mountain fold triangle behind model

29

Fold right edge to the edge of the other flap. You should only fold the top layer of paper, allowing the triangle behind to swing free

30

Unfold vertical crease, moving triangle to the left

31

Fold and unfold a vertical crease lined up with the left edge of the card

32

Fold and unfold crease to the triangle's edge

33

Fold and unfold

34

Unfold entire flap to the right

35

Fold triangle left along existing crease

36

Fold tip right along second crease

37

Fold and unfold edge to edge,  
bisecting corner angle

38

Swivel fold

39

Fold corner to corner

40

Fold edge to edge, bisecting  
corner angle

41

Unfold

42

Crimp along existing creases

43

Fold corner and unfold. There is no guideline for this step

44

Squash fold

45

Pull front flap out from behind pocket

46

Reverse the horizontal crease to tuck the colored side of the paper inside pocket

47

Mountain fold flap behind model

48

Fold edge to line up with the other flap's edge

49

Pull head free of flap

50

Completed model

By modifying the head, you can also make a cat!
